PROJECT EAGLE LAKE TROUT

Congratulations on holding another very successful event at Eagle Lake! The Seventh Annual Family Festival is certainly worthy of acknowledgement! I apologize for not being able to attend this event at Eagle this year however, matters with major challenges in the State dictated where and when I could spend my time!

The California Department of Fish and Wildlife applauds what Project Eagle Lake Trout has accomplished in the past years. Your efforts are recognized and appreciated. The fund-raising and support from donors has provided momentum and enthusiasm and the volunteers have produced results that continue to provide opportunities for anglers seeking trophy-sized trout.

It is important that PELT and its supporters continue to be dedicated. Eagle Lake is a recognized Heritage Trout Lake and as such, receives scrutiny, attention and is of great concern to the Department. In these times of drought, low water and launching difficulties, it is important that we continue to do the best we can, until Mother Nature gives us a break!

Eagle Lake is a wonderful resort area and a California treasure. The fishing continues to be good and the Department monitors results. We look forward to improving lake conditions and our continuing partnership with CIFFI to ensure Eagle Lake is once again, a strong, viable, trophy fishery. We appreciate your efforts and look forward to improved water conditions and fishery. Without these partnerships the Department would struggle to meet the vast challenges and we are grateful.

Sincerely,

Stafford Lehr, Chief
